HIVE Touch is an Intuitive capacitive touch panel interface that seamlessly connects with HIVE Cloud. It renders HIVE's control panels natively to give a dynamic user experience. It provides access and asset management to the devices that are connected to the HIVE Cloud. HIVE Touch also emulates a software Node and acts as a control system for the entire room and control all IP devices in the room with no additional hardware. With built-in PoE and Wireless Connectivity HIVE Touch can be integrated into a wide range of applications.
